

New Scent Center Proposal

Bringing restoration and the fragrance of Christ to young street girls in Kenya

The Vision

Many thousands of young girls, some as young as 5 years old, are being sold for sex by their parents and others on the streets of Kenya.

Some, are homeless and sell themselves. The sexual abuse they endure scars them for life.

Flora Mwikali, a seminary graduate, left her job as a university professor to save these young girls from a life of hopelessness and degradation and introduce them to new life in Christ.

Currently she houses the girls in her tiny 3 room home, with only an outdoor charcoal-stove-kitchen and an outhouse. Flora sleeps on a cot in the storage room.

Outcomes

30 street girls rescued, enrolled in school, and introduced to Christ.

A demonstrated restoration program that is seeing concrete results in changed lives.

A proven model which can be self-sustaining and expanded to provide new life in Christ to up to 160 girls.

How the Vision Is Being Implemented

Phase 1: Provided a home for 30 street girls and:

- Led them to Christ
- Enrolled them in school
- Provided a safe and loving home
- Trained them with job skills

DONE!

Phase 2: Purchased suitable property on which to build a center and provide land for farming. Though a number of donors, God has raised the \$35,000 to purchase this land.

DONE!

Phase 3: Detailed architectural and construction plan and cost analysis has been obtained. This was provided for free by a local construction firm. All permissions secured.

DONE!

Phase 4: Build a center for 160 girls and small home. Cost: \$321,086.

Hostel for Girls

Grants already committed:

\$200,000 and a matching grant for \$15,000/yr = \$30,000/yr when matched

Two Financial Requests

1. Matching \$15,000/yr for 2 years
2. Separate grants totaling \$60,000.

Sustainability:

Once the building is built, New Scent can obtain a license and assistance from the government.

Property will be farmed to supply food to surrounding villages.

A critically needed school has been started. This will be a significant source of income.

Other donors in Kenya, Europe, and US are involved.
